The REBEL RAIDER 380 is the largest option in our range of Raider RIBs, boasting an optional floating console and can take up to 30hp making it a fast and dry ride. The carbon fibre dash looks great with the navigation lights on the console. Heytex tubes as standard with the option of ORCA Hypalon tubes (special order). The double floor keeps your feet dry and the movable bench seats make for a more comfortable ride. Packages available with Tohatsu and Honda engines and SBS or Extreme trailers.

REBEL RAIDER Aluminium range of Mini RIBS are a quality tender that's perfect for your cruiser, sailboat or just getting on the water. Thanks to the lightweight construction, this allows you to use smaller engines (again reducing the overall weight) and have better fuel efficiency and performance than some other RIB's. And because it has a heavy-duty keel guard you can confidently run your Rebel Raider onto the beach or venture to those more remote locations where you wouldn't take a GRP boat.

The Rebel Raider mini-RIBs are constructed from marine grade 5083H116 aluminium and powder coated hull, Heytex PVC tubes. They all have a bow locker with tank securing strap, double layered deck which allows you to put a fuel tank in the locker and run your fuel pipe underneath. This helps keep your feet dry and tripping which keeps your feet dry for a more comfortable trip and is covered with high quality EVA decking to give you a deluxe feel. There's also lifting eyes fitted in all four corners for davits.

Rebel Raiders not only look great, but they are designed to be very stable, lightweight, and robust.

Packages are available with Honda or Tohatsu engines, Extreme or SBS trailers.

All Rebel boats come with seat, paddles, pump, and repair kit.
Available from 2.4 metre to 3.8 metres.

Optional floating console or jockey seat is available for the Raider 360 and 380 (extra cost).
